

Medical Supply/Equipment donations to Mission Regan

- Mission Regan takes in and gives out any medical supplies found in a hospital as well as patient care supplies used in home health and hospice.
- Supplies must be in original, unopened, sealed packaging. All types of medical supplies are accepted, but may be declined due to condition or lack of need.
- Equipment must be in working order AND good, clean condition - good rule of thumb: is this a piece of equipment you'd give to your mother to use. Equipment may be declined if it is not in acceptable condition or is something we do not have a need for.
- Other supplies accepted: diapers (all sizes), underpads, formula (baby, tube feed, etc).
- Expired supplies are ok. (exception: NO expired liquid formula)
- We do NOT take: clothing, household items, furniture, etc.

Medication donations to Mission Regan

- Must be in original, unopened, **sealed** packaging. No open containers or loose medications.
- We do NOT take any controlled substances.
- Expired medications are ok. (within 2 years of expiration)

PLEASE NOTE: We only accept medications that are in original, blister-SEALED packaging. We do not accept medications that do not have the blister seal still intact. If there is not an original, intact seal on the medication, we cannot take it. We are not a medication disposal site. Please note that most regular pharmacy bottles are NOT sealed and therefore, NOT accepted.
